## Parser Error

**Description:** An error occurred during the parsing of a resource required to service this request. Please review the following specific parse error details and modify your source file appropriately.

**Parser Error Message:** Expected a "{" but found a "count". Block statements must be enclosed in "{" and "}". You cannot use single-statement control-flow statements in CSHtml pages. For example, the following is not allowed:

```
@if(isLoggedIn)
  <p>Hello, @user</p>
```

Instead, wrap the contents of the block in "{}":

```
@if(isLoggedIn) {
  <p>Hello, @user</p>
}
```

### Source Error:

```
Line 203:
<td>@AlloRow[col.ColumnName]</td>
Line 204:
if (colName != "ExemptName")
Line 205:
count = count +
Convert.ToInt32(row[col.ColumnName]
);
Line 206:
}
Line 207:
}
```

**Source File:** /Views/Home/Report\_22.cshtml **Line:** 205
